

Make the most of your ECMI membership:

Education

- Become an ECMI Teaching Centre and join the ECMI Master Programme.
- Join the Educational Committee to shape the future of industrial math education in Europe.
- Send students to ECMI annual modelling weeks, take part as instructor, or consider organising a modelling week.

Research & Innovation

- Join a Special Interest Group (SIG) to discuss industrial math research on a European scale, meet new colleagues from academia and industry.
- Initiate a new SIG in your own area of applied mathematics research with financial support from ECMI.
- Take part in a European Study Group with Industry, benefit from ECMI support for organizing a study group yourself.

Outreach

- Become author of the ECMI blog, post your thoughts about industrial maths, job offers, and news from your institution. Become a featured ECMI node to present your institution.

Publish

- Get free vouchers to publish in the Springer ECMI "Journal of Mathematics in Industry", publish a book in the ECMI sub-series of Springer Math in Industry.
